

# Enterprise Project Management

Collaboration

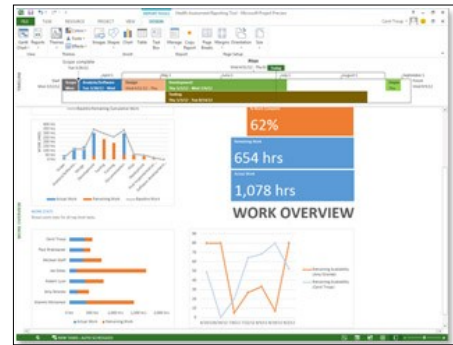

Agility  
& control

**power . collaboration. visibility**  
*preferred platform for controlling projects*

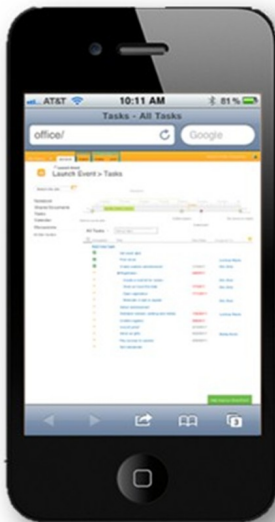

# Project Controls and Performance Measurement

**Stay informed:** control project schedules, finances, and keep project teams aligned, while becoming more productive through powerful reporting options, integration with familiar Microsoft Office programs, guided planning, wizards, and templates. EPM capabilities when connected to Microsoft Project Server.

**Centralize Project Data:** Team members can quickly review project status access related artifacts and more effectively collaborate

Access your project site to get work done from virtually anywhere.
